Introduction

Alpha Anywhere	vii
Alpha Anywhere Report Writer	vii
A message to the small business community	viii
Acknowledgments	ix
Getting Started	ix
Installing the Alpha Anywhere Made Easy lesson files	x
What files are included?	x

1 Follow the money!

How the book is organized	3
Reporting with Alpha Anywhere	3
Using SQL with Alpha Anywhere	5
What is best? SQL or DBF???	5
Companion books	7
Learning to write Web and Mobile applications	7
Learning to write Desktop applications	8
Learning Functions and Expressions	8
Learning Xbasic	8

2 What's your style?

Comparing the report styles	10
Linked Reports	10
Using Alpha Anywhere	11
Understanding Web Components	11
Understanding Workspaces	11
Understanding the Control Panels	11
Using SQL databases to create reports	12
Creating “project level” and “workspace level” reports	13
Opening completed reports	13
Learning Report Basics	13
Understanding the Quick Report Genie	14
Selecting the Data Source	15
Understanding the Columns tab	15
Previewing the report	18
Understanding the Groups tab	19
Understanding the Report Settings tab	20
Understanding the Filter/Order tab	21

- Understanding the Calculated Fields tab 22
- Understanding the Style tab 22
- Understanding the Preview tab 23
- Saving the Quick Report Genie 23
- Switching to the Report Editor 24
- Understanding the Report Editor25**
 - Testing the design of the report 26
 - Understanding the Preview tabs 26
 - Understanding the Preview toolbar 27
 - Saving reports as PDF, HTML, Rich & Plain Text and Excel files 28
 - Changing from color to black and white 30
 - Posting files online 30
 - Printing the report 30
 - Returning to the Design Editor 30
 - Understanding the Top Menu 31
- Examining the Report Editor Sections32**
 - Understanding the Report section 32
 - Understanding Group section(s) 33
 - Understanding the Detail section 33
 - Hiding and showing sections 34
 - Adding and removing sections 35

3 Heart and soul!

- Understanding the Task Panes39**
 - Using the Task Panes 40
- Using the Toolbox.....42**
 - Using the tools 43
 - Adding text to the report 44
 - Using Frames 45
 - Drawing Lines 46
- Using the DragDrop List47**
 - Understanding the DragDrop List buttons 47
 - Locating fields 49
 - Setting the sort order for the list 51
 - Collapsing headings 51
- Using the Interactive Window51**
- Defining object properties52**
 - Using the Properties Pane 52
 - Understanding Dynamic properties 54
 - Using the Object Properties dialog 54
 - Setting the properties of objects 55
- Working with the Floating Toolbars.....56**
 - Docking and undocking the Floating Toolbars 58
- Aligning and Moving Objects in Free-form reports59**

Using Dynamic Guidelines 59
Using Snap to Grid 60
Using micro moves 60
Using the Rulers Menu to align and move objects 60

Additional actions..... 62
Grouping objects 62
Undoing actions 62
Closing up the space 62
Adding a page break 63
Moving one or more objects across sections 63

4 Design it your way!

Special notes..... 67
Customizing Reports..... 67
Modifying the Report Header..... 68
Adding a Calculated Field 68
Using the Expression Builder 69
Adjusting object size and formatting 70
Modifying the Group Header 71
Formatting multiple objects 72
Modifying the Detail Section..... 72
Creating simple numeric calculations 73
Using a calculated field in an expression 73
Refining height and position of objects 74
Modifying the Group and Report Footers 75
Creating a Group summary 75
Creating a Report summary 76
Creating a Group summary label 77
Writing summary expressions 78
Modifying Quick Report Genie summaries 79
Modifying the Page Footer..... 80
Copying objects from one report to another 80
Viewing and Changing Calculated Fields..... 81
Understanding the Calculated Values dialog 82
Filtering and Ordering Reports 83
Adding a filter 84
Ordering records 85
Creating an Argument 86
More filtering options 87
Displaying objects conditionally..... 88
Displaying a single object conditionally 88
Displaying multiple objects conditionally 88
Shrinking the Detail section 89
Editing the Conditional Object section 90

Removing the Conditional Object 90
Creating a Sub-Report91

5 Spreadsheet Star!

Understanding Layout Table style reports95
 Transferring data to Excel 95
 What to expect when transferring to Excel 96
Creating a Layout Table report with the Quick Report Genie.....96
 Saving the Quick Report under another name 96
 Creating a Quick Report Calculated Field 97
 Switching to the Layout Table Report Editor 98
Understanding the Layout Table Report Editor98
 Exploring cells 99
 Exploring columns 100
 Exploring rows 101
 Additional features 101
Understanding the Cell Contents Dialog.....102
 Editing and formatting text 102
 Editing and formatting fields and expressions 104
Editing the Layout106
 Changing cell content type 106
 Adding a field column 106
 Formatting with the Text Toolbar 107
 Merging cells 107
Creating a Layout Table Report from scratch.....108
Understanding Groups and Summaries.....108
 Adding a group 109
 Adding a summary 109
 Saving the summary as a named calculated field 110
 Using the summary in an expression 110
 Making row cells wider 111
Sending “live” formulae to Excel..... 111
 Creating Excel references and calculations 112
 Creating Excel Sub-totals 113
 Creating Excel grand totals 114
Creating Conditional Field Values with HTML editor115
 Adding a blank column 116
 Understanding the HTML cell content editor 116
 Building the expression 117
 Adding HTML tags 118
 Ordering and previewing the report 118
 Suppressing blank lines 119
Creating Conditional Field Values with RTF editor 119
 Understanding the Static RTF genie 120

Building the expression 121

Creating Conditional Text 122

Separating Content with Boxes and Lines 123

- A. Adding a separator row 124
- B. Adding the box 124
- C. Setting the box properties 124
- Justifying the box to the bottom of the page 125
- Selecting the box 125
- Deleting the box 125
- Creating lines between columns 125

Setting up the Report for Printing 126

6 Limitless Links!

Getting more info 129

Understanding Linked Reports 129

Adding a Linked Report to a Layout Table report 130

- Opening the “parent” report 130
- Opening the “child” report 130
- Adding a Linked Report to a Layout Table report 131
- Transferring to Excel 133
- Modifying the reports for printing 133
- Refreshing a Linked Report 134

Adding a Linked Report to a Free-form report 134

- Opening the Edit Linked Report builder 135
- Refreshing the Linked Report 135

Publishing Totals from Linked Report to Main Report 136

Using Arguments in Linked Reports 137

- Adding an Argument to a Linked Report 138
- Adding the Argument to the Main Report 138
- Removing an Argument 140

Using Filters in Linked Reports 140

- Creating the Filter 140
- Removing the Filter 140

Linking a Report to a Form or another Report (Interactive Reporting) 141

- Drilling-down to open a desktop form 141
- Setting up the links 142
- Making the field look like a hyperlink and renaming the object 142
- Choosing the linking layout 142
- Using the hyperlink 143
- Viewing your changes in the report 143
- Drilling-down to open a Report 144

7 **Captcha this!**

How the chapter is organized.....	149
Restoring a Report to an earlier saved version.....	149
Creating a Blank Report.....	149
Understanding Report Properties	150
Adding columns	150
Displaying groups	151
Formatting objects	151
Adding or removing the detail section	152
Adding and ordering groups	152
Applying CSS styles	153
Adding Headers and Footers	154
Remove extra space in header / footer	154
Understanding Special Headers and Footers	155
Understanding Page Headers and Footers	155
Understanding Continuation Headers & Footers	158
Understanding Repeating Headers & Footers	160
Deleting Headers and Footers	161
Adding Color to a Report.....	161
Coloring alternate rows (aka “Greenbanding”)	162
Understanding Dynamic Properties	162
Understanding the Functions	162
Enclosing the fields in a Frame	162
Putting Boxes around Fields with Certain Values	164
Writing the style expression	165
Creating a Cover Page	166
Adding an image	168
Removing the footer from the cover page.	169
Adding Bookmarks, a Table of Contents and an Index.....	169
Understanding the dialogs	171
Defining the Bookmarks	173
Defining the Table of Contents	174
Defining the Index	174
Customizing the Table of Contents	175
Customizing the Index	177
Saving to a PDF file	179
Editing the links for a custom TOC or Index	180
Removing an entry expression	180
Removing a Bookmark, TOC or Index from the report	180
Locating the TOC and Index reports	180
Working with PDF, HTML, Rich & Plain Text and Excel formats	181
Watermarking a PDF report	184
Converting a Free-form report to a Layout Table	184
Printing records.....	185

Printing the same report in multiple languages 185
Importing a Desktop Layout 186

8 Reports that go Anywhere!

How the material is organized 189
Working with SQL databases 189
Connecting to the SQL Data 190
 Creating a new Connection String 190
Understanding Project Level reports..... 192
Understanding Web Components 192
Creating a Project Level report with SQL data 193
 Determining the maximum number of records to retrieve 194
 Opening at the Quick Report Genie 194
 Viewing the report in the Report Editor 196
Opening a Report in a Web Application 196
 Creating a Grid Component 197
 Previewing the Component 199
 Adding a Button that Prints a Report 200
Opening a Report in Mobile Application 203
 Understanding the UX Component 203
 Understanding the List Control 204
 Creating a UX Component 204
 Adding a List Control 205
 Understanding Panel Cards 206
 Understanding Containers 207
 Adding a Panel Card 207
 Using the simulator display 208
 Adding a button that opens a report 208
 Adding a Panel Navigator 210
 Giving the component a title 211
 Moving the button to the top 212
Exporting a Report Definition* 213
 Removing table formatting at Word 215
 Filtering the report 216
Opening Reports in Desktop Applications..... 216
Using a Desktop Form with a Button to Open a Report..... 216
 Creating the form 217
 Creating the button 217
Viewing a Report inside a Desktop Form 218
 Adding the report 219
 Adding a toolbar 219
 Viewing a PDF document on a form 221

9 Champion Charts!

How the material is organized	225
Deciding what you want to show in the chart	225
Creating a chart based on a table	226
Defining the chart settings	226
Editing charts	230
Summarizing chart data	230
Customizing labels with a placeholder	231
Changing chart definitions	233
Creating a chart based on the report contents	233
Keeping the group together	235
Creating charts for web and mobile	236
Understanding the video selection	236
Understanding the Data Series	236
V11 Feature Packs - UX Component - Chart Control	237
UX Component videos	243
Custom Component videos	243

10 Send it old school!

Creating Letters	247
Reviewing properties for letters	250
Creating Envelopes	250
Creating an Envelope	251
Understanding the Delivery Point Barcode	251
Creating Labels	253

11 Help is at the ready!

How the material is organized	257
Understanding the Documentation Viewer (DV)	258
Getting off to a strong start	258
Display and navigation	258
Searching for topic pages	260
Saving page references	263
Taking Notes	264
Printing topics	266
Updating the documentation	267
Window style	267
Restoring open pages	268
Sending feedback	268
Using the Video Finder	268
Filtering	269

Index	271
