1 Getting Started

Desktop, Web, Mobile

Important notes on name changes 2
Name changes and code 2
Mobile applications 2
Start here! 3
How Alpha Anywhere Help is organized 3
Asking for help 4
Understanding the Documentation Viewer (DV) 4
Getting off to a strong start 4
Display and navigation 5
Searching for topic pages 7
Saving page references 10
Taking Notes 11
Printing topics 13
Updating the documentation 14
Window style 14
Restoring open pages 15
Sending feedback 15
More on finding functions and methods 15
Finding functions 15
Finding methods 16
What you'll find on the pages 17
Using the Video Finder 17
Filtering 17
Hybrid videos 18
How this book is organized 19
Sorting it all out 19
How the functions are organized in this book 20
Finding our page references 20

2 Core & Script Writing

Desktop, Web, Mobile

Overview 21
Core Functions 23
Character Functions (Core) 23
Date and Time Functions (Core) 24
Expression Evaluation Functions and Methods (Core) 25

File Functions and Methods (Core) 25
List Processing Functions (Core) 25
Mathematical Functions (Core) 25
Query Functions and Methods (Core) 26
Record Functions (Core) 26
Report Functions and Methods (Core) 26
Type Checking Functions (Core) 27
Array Functions & Methods 27
Collection Methods 28
Developer Functions & Methods 29
Script Functions 32
Repository 34
Trace Functions & Methods 34
Variable Functions & Methods 35
Work Queue 36

3 Character Types

Desktop, Web, Mobile

Overview 39
Addition Functions 41
Case Functions 41
Comparison Functions 42
Compression Functions 43
Conversion Functions 43
Counting Functions 45
Extraction Functions 46
Formatting Functions 47
Replacement Functions 49
Search Functions 52
Search Methods 54
Sort Functions 57
List Processing Functions 57
List Processing: Built-In Lists 57
List Processing: Counting 58
List Processing: Formatting 58
List Processing: Importing and Exporting 59
List Processing: Inserting and Deleting 60
List Processing: Processing 60
List Processing: Searching and Replacing 60
List Processing: Sorting and Removing Duplicates 62
List Processing: Summarizing 63
Regular Functions & Methods 63
Type Checking Functions 64

4 Date & Time Types

Desktop, Web, Mobile

Overview 65
Date & Time Functions 66

Arithmetic Functions 66
Calendar Functions 66
General Functions 67
Calculation Functions 68
Conversion Functions 68
Formatting Functions 70
Date Formats 72
Predefined Date Formats 72
Date & Time Format Elements 73
Date & Time Conversion Matrix 75

5 Numeric & Logical Types

Desktop, Web, Mobile

Overview 79
Numeric Types 79
Logical Types 79
Arithmetic Operators 80
Mathematical Functions 80
Trigonometric Functions 82
Financial Functions 83
Authorize.net Functions 83
Authorize.net Method 85
Logical Methods 85
Logical Operators 85
Comparison Operators 86

6 Queries, Expression Evaluating &Type Checking

Desktop, Web, Mobile

Overview 89
Queries 90
Query Functions 90
Query Methods for <Query> Pointer 92
Expression Evaluation Functions 93
Record Searches 95
Type Checking Functions 95

7 Reporting

Desktop, Web, Mobile

Overview 97
Charts 98
Reports 98
Report Functions & Methods 98
Reports: HTML rendering 100
Reports: Print, Preview & PDF Functions 100
XML 101
Web & Mobile applications 101
XPS 101

8 Specialty Areas

Desktop, Web, Mobile

Overview 103

Addressing & Tracking Functions 105
FedEx, UPS and USPS 105
Web services for latitude & longitude 105
Blob Functions and Methods 105
Blob Functions 106
Blob methods 106
Blob <Blob> Methods 107
Blob Compression 108
Color Functions 108
Color Functions & Methods 108
ColorDefinition Properties 109
ColorDefinition Methods 110
Connection Strings 110
Email: Send & retrieve 111
Email functions for retrieving via POP3 111
Email functions for sending via CDO ActiveX 111
Email functions for sending via SMTP 111
Email functions for sending with no profile 112
Email functions for use with built-in client 112
Error Functions 113
Graphics 114
iPhone Functions 114
ImageResource Object 114
Internet Functions & Methods 115
Set Functions & Methods 118
Set Functions 118
Set Methods: Set object 118
Set Methods: <Set> pointer 119
StringDictionary 120
StringScanner 121
StringScanner Properties 121
StringScanner Methods 121
Web Components 124
E._set object 124
UX Components 125
Grid Components 125
Running a Component or Report in a Custom, PageLayout or UX Component 125

9 System Formats

Desktop, Web, Mobile

Overview 127
Dictionary Functions & Methods 129
Directory Functions & Methods 129
Directory Functions 129
Directory Methods 131
File Functions & Methods 131

FILE Methods 131
FILE.OPEN Methods 134
File Functions 134
Filefind....136
FILEFIND Methods 136
FILEFIND.FIRST Methods 137
Filename Functions....138
Filename Functions 138
Filename Methods 139
Import Data into Alpha Anywhere Table....139
Index Functions & Methods....139
Index Functions 139
Index Methods 140
Performance Functions....141
Registry Methods....142
Shadow Database....142
System Functions & Methods....143
System Functions 143
System Methods 144
Thread Functions & Methods....144

10 Alpha Anywhere Fields, Records & Tables

Desktop, Web, Mobile

Overview.... 147
Field Functions & Methods....149
Field Functions 149
Field Methods: <Field> pointer 150
Field Methods: <Tbl>.Field 151
Primary Key 152
Record Functions & Methods....152
Field Values 152
Lookup Functions 153
Management Functions 153
Reading 154
Sampling Functions 154
Search Functions 154
Statistical Functions 155
Summary Functions 155
Table Functions & Methods....157
Table Functions 157
Table Methods: <TBL> pointer 159
Table Methods: Indexes 166
Table Methods: Operations 167
Table Methods: Table object 168
Active Link Tables....170

11 SQL Data Type

Desktop, Web, Mobile

Overview 173
Notes on this chapter 175
Portable SQL 176
    SQL Portability Functions 176
    Portable SQL Functions for Geographies 181
SQL Basics 182
    SQL Objects 182
    SQL Basic Functions 184
    UTF-8 (Xdialog) 185
SQL Argument Object 186
    SQL Argument Properties 186
SQL Arguments Object 187
    SQL Arguments Properties 187
    SQL Arguments Methods 187
    SQL Arguments Functions 188
SQL CallResult Object 188
    SQL CallResult Properties 188
SQL Connection Object 189
    SQL Connection Properties 189
SQL Connection Object Functions 190
    SQL Connection Methods 191
    SQL Connection Data Definition Methods 192
    SQL Connection Generation Methods 193
    SQL Connection Query Methods 194
    SQL Connection Security Methods 195
    SQL Connection Transaction Management Methods 196
    SQL Connection Update Methods 196
    SQL Connection Other Methods 196
SQL DataTypeInfo Object 196
    SQL DataTypeInfo Properties 197
    SQL DataTypeInfo Methods 201
SQL IndexColumnInfo Object 201
    SQL IndexColumnInfo Properties 201
    SQL IndexColumnInfo Methods 202
SQL IndexInfo Object 202
    SQL IndexInfo Properties 202
    SQL IndexInfo Methods 203
SQL ResultSet Object 203
    SQL ResultSet Properties 204
    SQL ResultSet Methods 204
SQL Row Object 205
    SQL Row Properties 206
    SQL Row Methods 206
SQL Schema Object 206

SQL Schema Properties 207
SQL Schema Methods 207
SQL TableInfo Object 208
SQL TableInfo Properties 208
SQL Table Info Functions 210
Geographic Databases....210
SQL Enumerated Types....211

12 JavaScript

Desktop, Web & Mobile

Overview.... 213
Using JavaScript with Alpha Anywhere....215
Using JavaScript with web applications 215
Using JavaScript with UX Components 215
Using JavaScript with Grid Components 216
The Alpha Anywhere JavaScript Core Library 216
JS: Arrays and Objects 217
JS: Elements 217
JS: Events 217
JS: IF Statement 218
JS: Number Functions 218
JS: Position, Size and Scrolling 218
JS: String Functions 219
JS: Styles and Class Names 219
JS: Unique ID 220
JS: Values and Attributes 220
Calling JavaScript commands in Grid & UX Components 220
UX Placeholders and JavaScript Methods 221
Grid Placeholders and JavaScript Methods 225
Session Variables....230
Using JSON with Alpha Anywhere....231
JSON Functions 231
JSON Methods 232
Using jQuery and jQuery UI with Alpha Anywhere 232
Client side calculations 233
Help on Syntax Rules 234
Creating a custom JavaScript function 235
Using Session Variables 236
JavaScript “pseudo” functions 236

13 Desktop: Layouts

Desktop Only

Overview.... 239
Browse Methods 241
Browse Methods: Browse <object> 241
Browse Methods: <Browse> pointer 241
Browse Methods: Active Link Table 247
Form Functions & Methods....247
Form Functions 247

Form Methods: Form <object> 248
Form Methods: Name, alias or pointer 248
Form Methods: Active Link Tables 254
Form: Hotspot Controls 255
Form: OnKey Events 256
Form: Predefined Display Formats 257
Character Predefined Display Formats 257
Numeric Predefined Display Formats 257
Date / Time Predefined Display Formats 259
Logical Predefined Display Formats 260
Label Functions & Methods 260
Layout Object Functions & Methods 260
Letter Functions & Methods 261
Reports & Printing 262
Report Functions & Methods 262
Report Methods: Printing 262

14 Desktop: Control Panel

Desktop Only

Overview 265
Control Panel Methods 266
Database Functions 266
Menu Functions & Methods 268
Objects 269
Operations Functions & Methods 269
Set Functions and Methods 271
Status Bar Methods 271
System Functions & Methods 272
System Functions 272
System Objects 273
Thread functions 273
Toolbar Functions & Methods 273
URL & IP Addresses 274
Web Application Server Functions 275
Window Functions & Methods 275

15 Desktop: Dialogs

Desktop Only

Overview 277
User Interaction Functions 278
Xdialog 280
Xdialog Functions 281
Xdialog: Hotspot Functions 283
Xdialog: Text Control Methods 284
Xdialog: Tree Controls 284
Xdialog: Tree Control Functions 285
Xdialog: Tree Control Methods 285

16 Desktop: Specialty Areas

Desktop Only

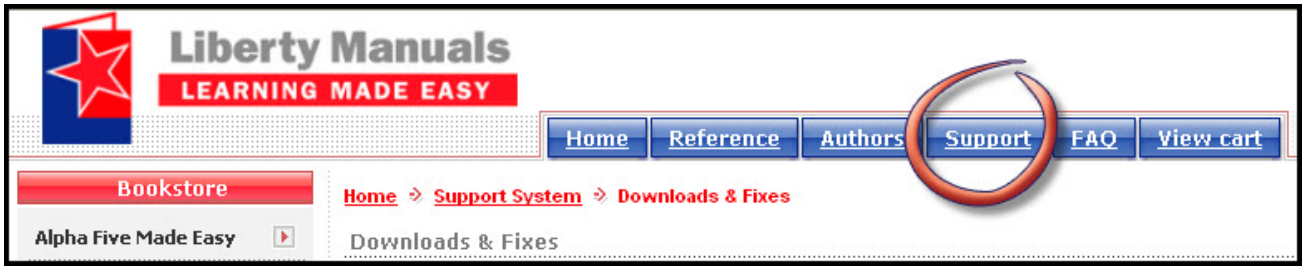
Overview 287
A5 Enumeration Methods 288
Bitmap & Graphic Functions 289
Graphic Drawing Functions 289
Graphics Functions for Code section 290
Clipboard Methods 293
Help Functions 294
Email: Alpha Anywhere built-in client 294
Netmailer Functions 296
Rich Text Formatting 296
RTF Functions and Methods 296
RTF Functions: Layouts 297
RTF Methods: <RTF Memo> 299
Security 300
Security Functions & Methods 300
Security Functions: Users and groups 300
Security: Encryption Functions 302
Security for E-commerce documents 304

17 Web & Mobile Applications

Web, Mobile Only

Overview 305
Developing web and mobile applications in Alpha Anywhere 306
Understanding the Client / Server model 306
Basic Web and Mobile Functions 308
Web Application Server Functions 312
Web & Mobile Security Functions 313
Security Functions: Users and groups 315
Security: Encryption Functions 315
Security for E-commerce documents 317
Web Encoding for Web Pages 317
OLE and ActiveX Methods 319

List of Functions & Methods 321



Support…

While every effort has been made to provide readers with a trouble free and accurate learning experience, some errors are bound to occur.

The support section of the website will publish corrections as they are discovered. We suggest you visit it periodically to see if there are modifications. And please let us know if you find something. Your fellow readers will appreciate it!

Credit where it is due…

With the permission of Alpha Software, Inc., the material in this book was taken from the *Alpha Five Documentation Viewer.* In some cases it is quoted directly, in others we have modified the copy. In all cases, the mission has been to convey the intent of the page.

The referenced pages often contain additional material that is important to understanding how the functions are used. Be sure to review them carefully so that you have all the information necessary for successful scripts.

This book is separated into the following categories: *Desktop, Web, Mobile* or *Desktop Only* or *Web, Mobile Only.* Many thanks to Lenny Forziati, VP of Internet Products and Technical Services at Alpha Software, Inc., for his guidance in this area.
